DEIB Toolkit

Compass Family Services is committed to creating an environment where individuals can successfully pursue their goals without the interference of negative experiences caused by microaggressions and institutionalized racism. The board, administration, and staff play a key role in creating this inclusive environment. We strive to foster a sustained and long-term commitment to transformation and progression that acknowledges diversity and multiculturalism. We must acknowledge and be aware that many individuals have complex identities in which their lived experiences have been marginalized based on gender, race, color, creed, sexual orientation, and ability.
